

## Dive Into Dental Implants with Bayshore Family Dental

Dental implants are a reliable and innovative solution for replacing missing or damaged teeth. This patient and resource guide provides all the essential information about dental implants, from understanding the procedure to exploring the benefits and aftercare.

Whether you are just beginning to consider dental implants or are preparing for your treatment, we strive to equip you with valuable insights to help you make an informed decision and achieve a confident, healthy smile.

## Fiction vs. Fact: Tackling the Top 5 Misconceptions People Have About Dental Implants

### Fiction

### Fact

**Dental Implants Are Painful.**

Many people believe the dental implant procedure is excruciating. However, modern techniques and anesthesia ensure that the process is virtually pain-free, with most patients experiencing minimal discomfort during recovery.

**The Procedure Itself Is Risky.**

Dental implant procedures, performed by experienced professionals, have a high success rate of over 95%. With proper care and maintenance, dental implants can last a lifetime.

**They Require Extensive Maintenance.**

Contrary to this belief, dental implants are low-maintenance and can be cared for like natural teeth with regular brushing, flossing, and dental check-ups. Unlike other dental solutions that often need adjustments or replacements, implants offer a hassle-free choice for lasting oral health.

**Dental Implants Look Unnatural.**

Some think implants are obvious or fake-looking. On the contrary, dental implants are custom-designed to match the color, shape, and size of your natural teeth, making them look seamless.

**Dental Implants Are Only for Older Populations.**

It's a misconception that dental implants are only suitable for senior citizens. Adults of all ages can benefit from implants if they meet the necessary oral health requirements.

# How Dental Implants Work

The basic technology behind implant dentistry is actually quite simple and easy to understand. The typical dental implant consists of the following elements:

## **Titanium Implant**

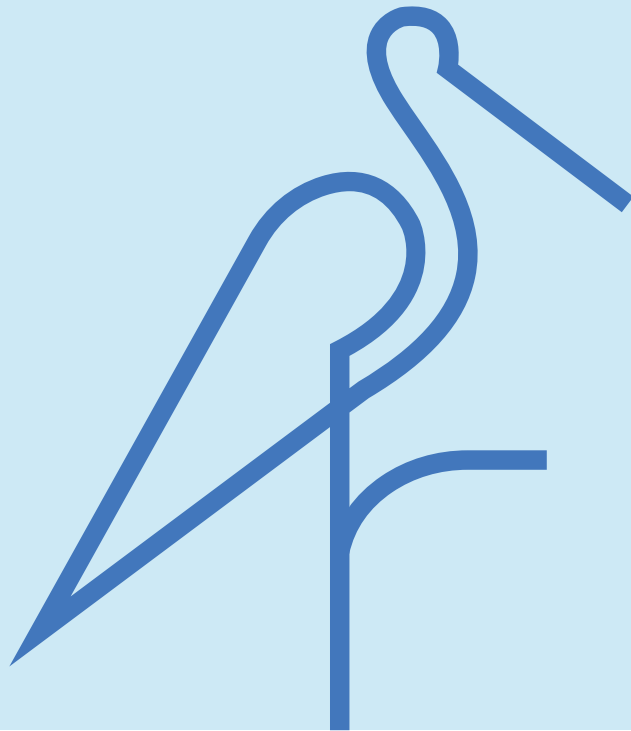

This goes directly into your jawbone to create a tight, secure structure.

## **An Implant Abutment**

This attached to the implant to form the tooth above the gum line.

## **A Manufactured Crown**

A crown is then milled to match your other teeth. Perfectly suited for biting, chewing, brushing, flossing, just like your natural teeth.

1

## **Before Surgery**

- Consultation and health evaluation.
- Full records and scans taken.
- Discuss treatment goals and determine candidacy.

2

## **During Surgery**

- Patient is sedated for comfort.
- Teeth are removed.
- Implants are placed.
- Temporary teeth are designed and delivered the same day.

3

## **After Surgery**

- Minimal discomfort—many patients only need ibuprofen or Tylenol.
- Follow-up appointments to monitor healing.
- Final zirconia teeth are delivered after healing is complete.

# Consider the True Costs

We offer both removal and fixed full arch replacements. Here, we highlight the significant differences:

## **Removable Full-Arch Replacement**

\$12,000–\$14,000 per arch

## **Fixed Full-Arch Replacement**

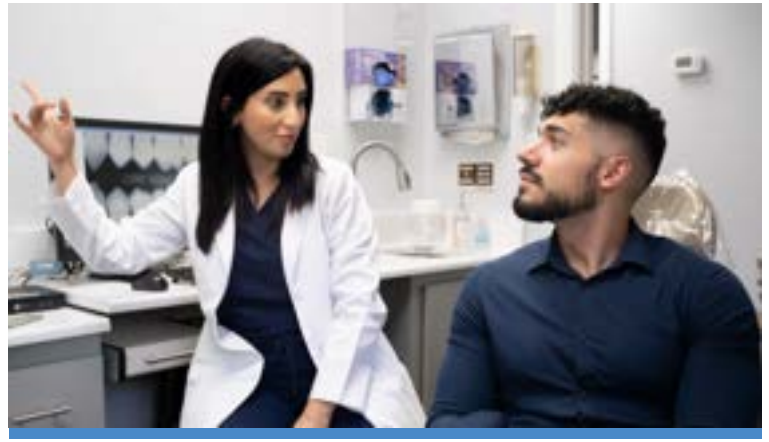

\$22,000–\$24,000 per arch\*

\*Our fixed full arch treatment ranges from \$22,000 to \$24,000. This price includes:

Extractions | Bone grafts (if needed) | Implants | Temporary "teeth-in-a-day" | Final zirconia restoration | Warranty coverage

# Take Advantage of Our Lifetime Warranty

Bayshore Family Dental provides a lifetime warranty as long as the patient follows care instructions, performs regular maintenance, and doesn't have certain risk factors (e.g., smoking or certain medical conditions).

## How Can I Afford Dental Implants?

### Insurance

Typically, a portion of the All-on-X dental implant procedure may be covered by dental insurance providers. Our team of experienced insurance claim specialists will work to maximize your savings by negotiating with major PPO providers like Delta Dental, Humana, and Cigna.

We can handle the paperwork for insurance claims and provide a detailed breakdown of charges, ensuring clarity of costs. Call our office to learn more about your insurance coverage and payment plan options, and our insurance specialists will guide you through the process.

### Financing & Payment Options

At Bayshore Family Dental, we understand that every patient's financial situation is unique. That's why we offer flexible payment options tailored to your needs. We also offer affordable financing plans through reputable third-party providers, ensuring that high-quality dental care is accessible within your budget.

Additionally, our team is here to discuss payment arrangements and find the best solution for you, making your dental care experience as stress-free as possible.

### Potential Tax Write-Off

If you have an active income, you may be eligible to deduct the cost of your dental implants on your taxes for the year you undergo surgery. Dental implants are considered a tax-deductible medical expense under certain conditions.

Ask us about the details of IRS Topic No. 502, and we'll gladly explain how to effectively deduct your implant surgery costs.

## Discover Your Best Tooth Replacement Options with Us

Dr. Sura is also a proud member of esteemed organizations such as the American Dental Association and the Florida Dental Association, reflecting her commitment to excellence and professionalism.

# Reviews Worth Reading About

"Both doctor and staff were great. Personable and knowledgeable. They use the latest technology and explain everything along the way. I never felt any stress with this office. It's a great team, really. All the employees seem happy, and I've found that employee attitude is a direct result of how they are treated by their boss(es)."

Larilyn G.

"Amazing in every way! Kind staff and a welcoming atmosphere. They always ask if you need anything and are happy to help you! I struggle with needles and I had to get a crown. They were very friendly and understanding when helping me through the process. I really appreciated it. Thank you again!"

Crystal M.

"I had an amazing experience with Bayshore! Everyone was so nice, warm, and welcoming. The doctor explained everything in detail, including (the) breakdown of costs. 1000% recommend!"

Catherine I.
